

Do you want to start your own project, realize a startup idea or support someone else for example on the subject of security and autonomy?

THEN YOU'VE COME TO THE RIGHT PLACE!

From the 10th to the 12th June, you got the chance to realise your dream and build in 54 hours a Startup, meet experts and mentors as well to be part of the global Startup-community. The best ideas will be presented on Sunday evening and awarded prizes by a jury.

Do you have a Startup idea to increase security and autonomy in Switzerland? This is one of the topics at this year's Startup Weekend, but of course you are just as welcome with any other interesting idea!

Besides a lot of fun, you will find:

- Motivated like-minded people who are burning for the topics of Startup and business starting and hungry to turn the world upside down
- Business and project ideas and teamwork
- Methods to create business models, prototypes and end presentation
- Know-how and fascinating lecture by mentors from different sectors
- Work materiel in a top location

... and all-inclusive meals during the three days!

No worries we are multi-cultural and speak German, English and French – you can talk in your favourite language!
