MEDETECH
INNOVATION
EVENT

Keynote by George Raeber

George Raeber heads the Global R&D and Innovation department of the Straumann Group. With more than 20 years of experience in medical technology, including design, development and marketing of medical devices, he specializes in implant-tissue interactions and digital workflows. He has been involved in several startups and was Chairman of the Board of Directors of Valoc. George Raeber holds a Master's degree in Biomedical Engineering from ETH Zurich and a PhD in Cell Biology and Materials Science from the University of Zurich.

Lessons from successful entrepreneurs

Dr. Greta Preatoni

Dr. Greta Preatoni is the CEO & co-founder of [MYNERVA](#), an ETH spin-off developing a AI-driven neurostimulating device to restore touch and reduce pain in diabetic neuropathy. Dr. Preatoni completed her PhD in Neuroengineering at ETH Zurich, where the idea of MYNERVA was born and tested in several clinical trials with great successes.

Luiza Dobre

Luiza Dobre is Managing Director & Founder at [Komed Health](#), a company providing a secure and powerful real-time communication platform for hospitals in order to facilitate communication and collaboration in care teams. She has 10+ years of valuable experience in leading and developing businesses. She holds a double Master's Degree in Marketing and International Management from University of St. Gallen and Esade Business School.

Startup pitches

Seven young and dynamic medtech companies will present they innovation during a six minutes pitch.
